SIGCOMM causes more misery than joy

# The joy is not evenly spread

# Fantasy SIGCOMM

- u Each SIGCOMM member gets 10 INars: buy a network of researchers
- u The price of the researcher is based on performance (EWMA)
  - $\text{current-price} = \alpha \times \text{papers-this-year} + (1 - \alpha) \times \text{old-price}$
- u Two rookies of your choice come for free
- u Winner declared after SIGCOMM results

	Old price	Curr price
Scott Shenker	6.25	4.08
George Varghese	4.38	3.19
Bruce Maggs	1.06	3.50

## **Fantasy SIGCOMM (2)**
